

# Perspect Analytics Inc.

Continuous Improvement with intelligentMRO™

---

## Introducing intelligentMRO™

Perspect Analytics' intelligentMRO™ platform seamlessly integrates and analyzes asset and maintenance data in near real-time from multiple CMMS/EAM/ERP/AMP systems. The AI/ML based solutions identify improvements in equipment reliability, financials, human resource efficiency, business process, inventory, procurement, and more. Actionable suggestions with measurable ROIs are then provided to facilitate timely implementation for continuous operational improvements.

With a holistic approach to all aspect of MRO, intelligentMRO™ enables:

- Data Consolidation
- Focused Action and Strategy Communications
- Evidence and Knowledge Based Decision Making
- A Data Driven Culture Providing Focused Improvement and Continuity Between All MRO Silos

### HOLISTIC APPROACH

#### EQUIPMENT RELIABILITY

Provides insight into the true cost and value of reliability programs to improve asset reliability and reduce risks

#### MRO INVENTORY

Optimizes operations by actions such as reducing holding cost, ensuring part availability, and improving equipment reliability

#### MRO WORKFLOW/HR

Workflow and HR efficiency opportunities are highlighted based on proven world-class workflow management principles

# Service and Benefits

Driving innovations in the maintenance world, Perspect Analytics IntelligentMRO™ suites of products and professional services minimize operation downtime, optimize MRO inventory, streamline the workforce and increase profitability. This is accomplished through marrying MRO best-practice knowledge with advanced AI/ML technologies.

## Reduced Risks

- Equipment failure risk
- Compliance risk
- Spare parts / Procurement risk
- Workforce / HR risk

## Maintaining Efficient Workforce

- Best team for the operation
- Succession planning
- Talent and skill training

# Best Tools

## VIRTUAL CONSULTANT™

Your on-promise consultant working from the cloud. Relying on advanced AI and ML techniques, it provides specific advice on how to successfully and sustainably improve

## CI SUPPORT™

Your go-to utilities to seriously explore, implement and measure in-house maintenance improvement projects through KPIs, trends, and predictions

## REALTIME MANAGER™

Managing MRO related activities and risks in real time by providing just-in-time predictions, trends, asset health evaluations and suggestions

Perspect Analytics Inc. is a software and solution company with a sole focus on developing innovative analytical solutions to improve all areas of the Maintenance, Repair and Operational (MRO) operations. By leveraging state-of-the-art AI/ML technologies, the goal is to eliminate non-value-added MRO activities while creating a responsive, data-driven continuous improvement culture.

**Actionable | Measurable | Sustainable | Adaptable**
